PRODUCT THEATER 2

Sunday, September 28, 2025 | 3:00–3:30PM
Colorado Convention Center, Hall D

**Impact of Oral Nutritional Supplementation on Growth
Indicators in Undernourished US Children**

Dr Stutts & Dr Niemi

Presenters will showcase the benefits of oral nutritional supplementation to support catch-up growth in undernourished children in the United States.†

FOR MORE INFORMATION, VISIT THE ABBOTT BOOTH #633

This is not a CME event.

* A clinical study through 12 months of age that enrolled 607 infants fed Similac® 360 Total Care®, formula without HMOs, or breast milk in the US (Reverri, et al. 2025, Reverri, et al. 2024).

† Studied over 120 days in undernourished children 3–8 years old, 2 servings per day and dietary counseling compared to dietary counseling alone (Data on file. 2025).

Attendance at this program is limited to healthcare professionals. Accordingly, attendance by guests or spouses is not appropriate. This program has not been funded with the intent for continuing education for any healthcare professional. This presentation is neither sponsored nor endorsed by the American Academy of Pediatrics.
